

RANA M. MAYS, M.D., FAAD

Double Board Certified Dermatologist

Medical | Autoimmune | Cosmetic | Hair Loss Dermatology

ranamaysmd@gmail.com

CLINICAL AND WORK EXPERIENCE

Founder & CEO, Mays Dermatology

Pearland, TX | Louisville, KY | Corona Del Mar, CA | 2017–Present

- Led and created a multi-location Dermatology practice with expertise in medical, surgical, cosmetic, and hair loss Dermatology.
- Oversee patient care, clinical operations, research activities, and staff development.
- Train residents and fellows in advanced medical and cosmetic dermatology procedures.
- Oversee MOHS micrographic surgical procedures
- Oversee advanced cosmetic procedure training, development, and care

Professional Consultant, 2017- Present

- Consult on numerous advisory boards and panels in numerous facets of Dermatology such as acne, rosacea, psoriasis, eczema, hair loss, vitiligo, and cosmetic developments
- Strategic Business consultant for Dermatology private practice development (insurance, concierge, start-ups)
- Consultant for cosmetic skin care product development and PR

Creator Hair + MD

- **Hair + M.D.**
 - A dermatologist-formulated hair restoration supplement designed to support **hair growth, density, strength, and overall hair health in both men and women.**
 - **Gluten-free, non-GMO, toxin-free formulation** using carefully selected ingredients to support hair health and restoration.
 - Formulated as a **100% physician-dispensed, clinically studied supplement** with multiple active ingredients designed for maximum efficiency and absorption.
- Launched and established the product for nationwide distribution and shipping, with availability through physicians and Amazon.

Associate Professor, Sam Houston University Medical School

Conroe, TX | 2025- Present

- Associate Professor providing medical education and clinical instruction to medical students, contributing to curriculum development, student mentorship, and advancement of clinical knowledge.
- Provides clinical guidance and supports the development of diagnostic reasoning, patient evaluation, and evidence-based medical decision-making skills.

Dermatology Associate, Dermatological Association of Texas

Houston, TX | 2015–2017

- Comprehensive Medical, Cosmetic, and Surgical Dermatology care in high-volume multi location practice

Principal & Sub-Investigator, Center for Clinical Studies

Webster, TX | 2015–2017

- Principal Investigator on numerous Phase II–III trials for psoriasis, eczema, acne, atopic dermatitis, and systemic therapies.
- Managed study design, regulatory submissions, and patient enrollment for over 50 industry-sponsored trials.

Internal Medicine Hospitalist, Baptist East Hospital

Louisville, KY | 2010–2011

- Full-time inpatient care, including critical care, consult services, and acute management of complex cases.

• **AWARDS & HONORS**

- **America's Top Dermatologist**
- **Top Doctor** (*Physician peers -nominated*)
- **Top Injector**
- **"40 Under 40" Nominee, 2020** – Recognized by peers and patients for contributions to dermatologic education and expanding access to care
- **Chief Resident**, Baylor College of Medicine (Ben Taub & VA Hospitals)
- **98th Percentile** – American Board of Dermatology In-Service Exam
- Internal Medicine Clinical Clerkship Award
- University of Louisville Ashley R. McCullough Exceptional Honors Student Award
- Kentucky Educational Excellence Full College Scholarship – 4 years
- Golden Key International Honour Society – 4 years
- Dean's List – 4 years

EDUCATION & MEDICAL TRAINING

Baylor College of Medicine — *Dermatology Residency*

Houston, TX | 2012–2015

- Chief Resident, Ben Taub General Hospital and VA Medical Center
- 98th percentile, ABD In-Service Exam

University of Louisville Hospital — *Internal Medicine Residency*

Louisville, KY | 2007–2010

University of Louisville School of Medicine — *M.D.*
Louisville, KY | 2003–2007

University of Louisville College of Arts & Sciences — *B.S., Biology*
Louisville, KY | 1999–2003

- Minor: Chemistry | Summa Cum Laude

Study Abroad — *Art & Architecture History*
Spain & Portugal | 2002

BOARD CERTIFICATIONS & PROFESSIONAL AFFILIATIONS

- **American Board of Dermatology**
- **American Board of Internal Medicine**
- **Fellow**, American Academy of Dermatology, American Academy of Dermatology (AAD), American Society for Dermatologic Surgery (ASDS), Skin Cancer Foundation, American Society of Aesthetic & Cosmetic Physicians (ASACP)
- **Member**: American Society of Dermatologic Surgery, Skin Cancer Foundation, California & Kentucky Medical Associations, Harris County Medical Society, Lupus Foundation, American College of Physicians

RESEARCH

2025	Principal investigator Alopecia Areata, <i>Center for Clinical Studies</i>	<i>Houston, Texas</i>
	• Led a clinical trial investigating novel therapies for alopecia areata, overseeing study design, patient enrollment, data collection, and regulatory compliance. Ensured adherence to protocol and contributed to advancing therapeutic options for hair loss.	
2017	Principal Investigator Foamix/ <i>Center for Clinical Studies</i>	<i>Webster, Texas</i>
	▪ <i>A Randomised, Multicenter, Double-blind, Vehicle-Controlled Study to Evaluate the Safety and Efficacy of FMX103 1.5% Topical Minocycline Foam Compared to Vehicle in the Treatment of Facial Papulopustular Rosacea (FX2016-12).</i>	
2017	Principal Investigator Oncobiologics/ <i>Center for Clinical Studies</i>	<i>Webster, Texas</i>
	▪ <i>A Randomised, Double-blind, Multicenter, Equivalence study of ONS-3010 and Humira for the treatment of patients with Moderate-to-Severe plaque psoriasis.</i>	
2017	Principal Investigator Incyte/ <i>Center for Clinical Studies</i>	<i>Webster, Texas</i>

	▪ <i>A Phase 2 Randomised, Dose-Ranging, Vehicle Controlled and Triamcinolone 0.1% Cream-Controlled Study to Evaluate the Safety and Efficacy of INCB018424 Phosphate Cream Applied Topically to Adults with Atopic Dermatitis.</i>	
2017	<i>Principal Investigator</i> Sandoz/ Center for Clinical Studies ▪ <i>A Randomised, Double-blind, Multi-Center, Two-Arm parallel-group Phase III study in patients with moderate to severe chronic plaque-type psoriasis to compare efficacy, safety, and immunogenicity of GP2018 to Remicade. , Actual Use study of dupilumab auto injector device in patients with Atopic Dermatitis.</i>	Webster, Texas
2017	<i>Interim Principal Investigator / Subinvestigator</i> Topstone/ Center for Clinical Studies ▪ <i>A Randomised, Double-blind, Vehicle-Controlled, Phase IIb Study to Assess the Efficacy and Safety of Topically Applied DS107 Cream to Adults with Mild to Moderate Atopic Dermatitis.</i>	Webster, Texas
2016	<i>Principal Investigator</i> Incyte/ Center for Clinical Studies ▪ <i>A Phase 2, Randomized, Dose-Ranging, Vehicle-Controlled and Triamcinolone 0.1% Cream-Controlled Study to Evaluate the Safety and Efficacy of INCB018424 Phosphate Cream Applied Topically to Adults With Atopic Dermatitis</i>	Webster, Texas
2016	<i>Interim Principal Investigator/ Subinvestigator</i> Glenmark/ Center for Clinical Studies ▪ <i>Subinvestigator for A Phase 2a, Double-Blind, Randomized, Placebo-controlled, Exploratory Study to Evaluate the Safety, Biological Activity and Pharmacokinetics of GBR 830 in Adult Patients With Moderate-to-Severe Atopic Dermatitis</i>	Webster, Texas
2016	<i>Interim Principal Investigator/ Subinvestigator</i> UCB/ Center for Clinical Studies ▪ <i>Subinvestigator for A MULTICENTER, RANDOMIZED, DOUBLE-BLIND, PLACEBO-CONTROLLED, PARALLEL-GROUP, DOSE RANGING STUDY TO EVALUATE THE SAFETY, EFFICACY, PHARMACOKINETICS, AND PHARMACODYNAMICS OF BIMEKIZUMAB IN ADULT SUBJECTS WITH MODERATE TO SEVERE CHRONIC PLAQUE PSORIASIS; PHASE 2B</i>	Webster, Texas
2016	<i>Interim Principal Investigator/ Subinvestigator</i> UCB/ Center for Clinical Studies ▪ <i>Subinvestigator for MULTICENTER, 48-WEEK, DOUBLE-BLIND, PLACEBO-CONTROLLED, PARALLEL-GROUP EXTENSION STUDY TO ASSESS THE LONG-TERM SAFETY, TOLERABILITY, AND EFFICACY OF BIMEKIZUMAB IN ADULT SUBJECTS WITH MODERATE TO SEVERE CHRONIC PLAQUE PSORIASIS; PHASE 2B</i>	Webster, Texas
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Cutanea/ Center for Clinical Studies ▪ <i>Subinvestigator for a phase 3 open-label extension study to evaluate the long-term safety of Omiganan Topical Gel in subjects with rosacea.</i>	Webster, Texas

2015	<i>Interim Principal Investigator/ Subinvestigator</i> Boehringer Ingelheim/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for BI 655066 versus placebo in a multicenter randomized double blind study in patients with moderate to severe plaque psoriasis evaluating the efficacy and safety with randomized withdrawal and treatment.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Novartis/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a randomized, double-blind, placebo-controlled parallel-group multicenter study to evaluate the effect of secukinumab on aortic vascular inflammation and cardiometabolic biomarkers after 12 weeks of treatment, compared to placebo, and up to 52 weeks of treatment with secukinumab in adult subjects with moderate to severe chronic plaque-type psoriasis.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Galderma/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a multi-center, randomized, double-blind, parallel-group vehicle-controlled study to compare the efficacy and safety of CD5789 cream versus vehicle cream in subjects with acne vulgaris.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> GlaxoSmithKline/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for study 203121: a randomized, blinded, vehicle-controlled dose-finding study of GSK 2894512 Cream for the treatment of atopic dermatitis.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> GlaxoSmithKline/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for study 203120: a randomized, blinded, vehicle-controlled dose-finding study of GSK 2894512 Cream for the treatment of plaque psoriasis.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Lilly Chorus/Center for Clinical Studies	Webster, Texas
	Subinvestigator for A Randomized, Double-Blind, Placebo-Controlled, Phase 2 study to evaluate the safety and efficacy of baricitinib in patients with moderate-to-severe atopic dermatitis, protocol I4V-MC-JAHG (a)	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Contravir/Center for Clinical Studies	Webster, Texas
	Subinvestigator for A Multicenter, Randomized, Double-Blind, Parallel-Group, Comparative Study of FV-100 vs. Valacyclovir for the Prevention of Post-Herpetic Neuralgia and Treatment of Acute Herpes Zoster-Associated Pain	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Eli Lilly/Center for Clinical Studies	Webster, Texas
	Subinvestigator for A Multicenter, Randomized, Double-Blind Study Comparing the Efficacy and Safety of Ixekizumab dosing Regimens in Patients with Moderate-to-Severe Plaque Psoriasis	

2015	<i>Interim Principal Investigator/ Subinvestigator</i> Coherus 1420-02/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for A Double-Blind, Randomized, Parallel-Group, Active-Control Study to Compare the Efficacy and Safety of CHS-1420 versus Humira In Subjects with Chronic Plaque Psoriasis	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Dermira PS0003/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for A PHASE 3, MULTICENTER, RANDOMIZED, DOUBLE-BLIND, PARALLEL-GROUP, PLACEBO-AND ACTIVE-CONTROLLED STUDY FOLLOWED BY A PLACEBO-CONTROLLED MAINTENANCE PERIOD AND OPEN-LABEL FOLLOW-UP TO EVALUATE THE EFFICACY AND SAFETY OF CERTOLIZUMAB PEGOL IN SUBJECTS WITH MODERATE TO SEVERE CHRONIC PLAQUE PSORIASIS	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Merck MK-3222-010/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a 64-Week, Phase 3, Randomized, Double-Blind, Placebo-Controlled, Parallel Design Study to Evaluate the Efficacy and Safety/Tolerability of Subcutaneous SCH 900222/MK-3222, Followed by an Optional Long-Term Safety Extension Study, in Subjects with Moderate-to-Severe Chronic Plaque Psoriasis	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Merck MK-3222-011/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a 52 Week, Phase 3, Randomized, Active Comparator and Placebo-Controlled, Parallel Design Study to Evaluate the Efficacy and Safety/Tolerability of Subcutaneous Tildrakizumab (SCH 900222/MK-3222), Followed by an Optional Long-term Safety Extension Study in Subjects with Moderate-to-Severe Chronic Plaque Psoriasis	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Leo Pharma 1032/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for Efficacy and Safety of Ingenol Mebutate Gel in Field Treatment of Actinic Keratosis on Full Face, Balding Scalp or Approximately 250cm² on the Chest	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Leo Pharma 1193/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for Efficacy and Safety of LEO 43204 in Field Treatment of Actinic Keratosis on Face or Chest including 12-month follow-up	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Leo Pharma 1195/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for Efficacy and Safety of LEO 43204 in Field Treatment of Actinic Keratosis on Balding Scalp including 12-month follow-up	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Polynoma/ Center for Clinical Studies	Webster, Texas

	Subinvestigator for a multicenter, randomized, double-blind, placebo and active comparator-controlled study evaluating the efficacy and safety of guselkumab in the treatment of subjects with moderate to severe plaque-type psoriasis.	
2015	<i>Interim Principal Investigator/ Subinvestigator</i> Janssen/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3 multicenter, randomized, double-blind, placebo and active comparator-controlled study evaluating the efficacy and safety of guselkumab in the treatment of subjects with moderate to severe plaque-type psoriasis.	
2012	<i>Investigator</i> Veterans Affairs Hospital, Department of Dermatology	Houston, Texas
	Investigator for an open label trial determining the clinical response to daily Vismodegib therapy in treatment of non-operable or metastatic basal cell carcinoma.	
2011	<i>Subinvestigator</i> Veregen/Center for Clinical Studies	Webster, Texas
	Subinvestigator for an investigator-initiated, open-label, mechanism of action study examining the antiviral and immune-modulatory effects of Veregen (sinecatechins ointment, 15%) in patients with external genital warts.	
2011	<i>Subinvestigator</i> Galderma/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a multi-center, randomized, double-blind, placebo-controlled, 3-arm parallel group study comparing the efficacy of CD2475/101 versus placebo and doxycycline in patients with inflammatory acne vulgaris.	
2011	<i>Subinvestigator</i> 2011Celgene/ Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3, multicenter, randomized, double-blind, placebo-controlled efficacy and safety study of oral apremilast (CC-10004) in adults with moderate to severe plaque psoriasis.	
2011	<i>Subinvestigator</i> Pfizer-Wyeth/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 4, multicenter, randomized, non-therapeutic interventional trial investigating prevalence of psoriatic arthritis in adults with psoriasis.	
2011	<i>Subinvestigator</i> Celgene/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3, multicenter, randomized, double-blind, parallel group, placebo-controlled study of two doses of apremilast in subjects with active psoriatic arthritis who have been previously treated with Disease-Modifying Anti-Rheumatic Drugs (DMARDs).	
2011	<i>Subinvestigator</i> Abbott/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3, multi-center, open-label study of briakinumab in patients with moderate to severe plaque psoriasis.	
2011	<i>Subinvestigator</i> Amgen/Center for Clinical Studies	Webster, Texas

	Subinvestigator for a phase 2 open label safety and efficacy study of AMG-827, an IL-17 inhibitor, for treatment of moderate to severe plaque psoriasis.	
2011	<i>Subinvestigator</i> Amgen/Center for Clinical Studies	Webster, Texas
	Subinvestigator for an observational post-marketing safety surveillance registry of etanercept for treatment of plaque-type psoriasis.	
2011	<i>Subinvestigator</i> Novartis/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a randomized, double-blind, placebo-controlled, multi-center study of subcutaneous secukinumab to demonstrate efficacy after twelve weeks and to assess safety, tolerability, and long-term efficacy up to one year in subjects with moderate to severe chronic plaque psoriasis.	
2011	<i>Subinvestigator</i> LEO/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3 multi-center study comparing once daily treatment with calcipotriol plus betamethasone, betamethasone in its vehicle, calcipotriol in its vehicle, and the topical vehicle alone in subjects with psoriasis vulgaris on non-scalp regions of the body.	
2011	<i>Subinvestigator</i> Amgen/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 3, randomized, double-blind, placebo-controlled study to evaluate the efficacy and safety of combination of topical clobetasol and etanercept in subjects with moderate to severe plaque psoriasis.	
2011	<i>Subinvestigator</i> NeurogesX/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a multi-center, randomized, double-blind, controlled study to evaluate the safety, tolerability, and preliminary efficacy of two capsaicin concentration variations of NGX-1998 (10% or 20%) in subjects with postherpetic neuralgia (PHN).	
2011	<i>Subinvestigator</i> Intendis/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 2, double-blind, randomized, vehicle-controlled, multi-center, multi-national, parallel-group study of the efficacy and safety of ZK 245186 (selective glucocorticoid receptor agonist) ointment in concentrations of 0.01, 0.03, and 0.1 % over 4 weeks in patients with atopic dermatitis.	
2011	<i>Subinvestigator</i> Amgen/Center for Clinical Studies	Webster, Texas
	Subinvestigator for an open label study to evaluate the efficacy of etanercept in subjects with moderate to severe plaque psoriasis who have lost a satisfactory response to adalimumab.	
2011	<i>Subinvestigator</i> Centocor/Center for Clinical Studies	Webster, Texas
	Subinvestigator for a phase 2, multicenter, randomized, placebo-and-active comparator-controlled trial to evaluate the efficacy and safety of CNT-1959 in subjects with moderate to severe plaque psoriasis.	

2011	<i>Subinvestigator</i> Pfizer/Center for Clinical Studies Subinvestigator for a phase 3, multicenter, open-label study of long-term efficacy, safety and tolerability of CP-690,550 (tofacitinib) in subjects with moderate to severe chronic plaque psoriasis.	Webster, Texas
2011	<i>Subinvestigator</i> Genocea/Center for Clinical Studies Subinvestigator for a phase 1/2a, randomized, double-blind, dose-ranging, placebo-controlled study to evaluate the safety and immunogenicity of a HSV-2 vaccine containing Matrix M2 adjuvant in patients with genital HSV.	Webster, Texas
2011	<i>Subinvestigator</i> Maruho/Center for Clinical Studies Subinvestigator for a randomized, placebo-controlled, double-blind, parallel-group, multi-center phase 2b dose finding study of M518101 (vitamin D derivative) in subjects with plaque psoriasis.	Webster, Texas
2011	<i>Subinvestigator</i> ApoPharma/Center for Clinical Studies Subinvestigator for a phase 2, randomized, placebo-controlled, double-blind, multi-center, multiple sequential escalating study to evaluate the safety, tolerability, pharmacokinetics, and efficacy of Apo805K1 (organic salt of thymodepressin) in subjects with moderate to severe chronic plaque psoriasis.	Webster, Texas
2011	<i>Subinvestigator</i> Novum/Center for Clinical Studies Subinvestigator for a randomized, placebo-controlled, double-blind, multi-center study comparing metronidazole topical gel 1% to Metrogel® (metronidazole gel) 1 % in the treatment of moderate to severe rosacea.	Webster, Texas
2011	<i>Subinvestigator</i> Galderma/Center for Clinical Studies Subinvestigator for a phase 3, randomized, placebo-controlled, double-blind, vehicle controlled , parallel group study assessing the efficacy and safety of CD5024 1% cream versus vehicle cream in subjects with papulopustular rosacea.	Webster, Texas
2011	<i>Primary Investigator, Study Designer</i> Center for Clinical Studies Designed an original, case-controlled, retrospective study investigating the effects of gender, stress, and age on the incidence of postherpetic neuralgia (PHN) in patients with acute herpes zoster.	Webster, Texas
2011	<i>Clinical Investigator</i> NASA/ Center for Clinical Studies Primary clinical investigator in a collaborative study with NASA scientists, analyzing the persistence of varicella zoster DNA in saliva of patients with C and T dermatomal herpes zoster. Involved in recruiting and treating subjects, obtaining samples for DNA analysis, collecting data, and submitting IRB documents.	Webster, Texas
2008-2010	<i>Primary Investigator</i> Melanoma Lab, James Graham Brown Cancer Center Investigated the efficacy of AS1411, Pu27 and Bcl-2 quadriplex DNA molecules on Mel 2 and Mel 28 human melanoma cell lines (N-ras and BRAF negative) and the potential mechanism of action on melanoma oncogene transcription and enolase activity. Formulated the original design for this in-vitro study in collaboration with the Department of Medical Oncology.	Louisville, Kentucky
